TEAC

Secure Digital (SD) Tower Duplicators

SD Tower Duplicators

- Standalone solution, no computer required.
- 1:3, 1:7, 1:11, 1:15 and 1:23 configurations.
- Supports Synchronous and Asynchronous duplicating modes.
- No warm-up and cool-down required.
- User-friendly interface and simple operation.
- Real-time display of detailed information on LCD screen.
- Supports all file formats, file, size and card/drive capacities.
- High-speed copy up to 10 MB / sec.
- Copy and compare function ensures successful and accurate copy.
- Unique Source Analysis function.

TEAC's complete line of **SD Tower Duplicators** easily and accurately duplicate SD cards without the need for a computer. Advanced Asynchronous Duplication Mode allows each channel to operate independently so there is no need to wait for duplication to start or finish at the same time.

Unique Source Analysis Function analyzes the content on the master and intelligently copies only the data to speed up copy time.
